How it Works

INTAKE

- Step 1: Make an appointment using the contact information on the left.
- Step 2: You and your chosen support system will participate in a Holistic Life Planning intake. This will be a 2-hour meeting to learn all about you and where we can support you!
- Step 3: Your case manager will create a set of plans tailored to your specific needs, financial situation, and goals that you will choose from.

PICKING A PLAN

- Each plan varies in direct contact with your case manager, pricing, and the services that are provided.
- You, your case manager, and your designated support team will work together to discuss how the services will be carried out, when they will begin, and how often updates are desired.

PROGRESSING

- Initially, several goals will be set to help ensure your success and happiness. At ASPPIRE, we understand that your needs will evolve over time. Our goal is to adapt to these changes while uplifting you to achieve each of your aspirations.
